Cody Adams - Senior Laravel Developer
ADD-NUMBER-HERE

Experienced Web Developer passionate about creating attractive and interactive websites that exceed customer expectations. Skilled in developing custom Shopify themes and templates, excelling in JavaScript development to enhance user experience. Able to translate design concepts into fully functional websites, delivering high-quality solutions that drive business growth and customer engagement.

Accomplishments

- Successfully transitioned our old Vue2 app towards Vue3 with a Material UI library from Vuetify to upgrade our UX/UI with friendlier and dynamic pages.
- Created Product Editor, a resource for the data department to make changes to our existing product catalogs without having to use spreadsheets or enter it manually in a database table.
- 3D Model Viewer, a custom web component that uses manufacturer's .glb assets to render them on product pages. Provides 3D/AR experiences.
- Dovrsign, launched Dovr Media's first ever kiosk sales application to their consumers.

Skills

- **Languages:** Javascript/Typescript, Liquid, HTML, CSS, MySQL/SQLite, PHP, Dart, Python, Java
- **Libraries/Frameworks:** React, Vue, Tailwind CSS, Next.js, Express JS, Laravel, Flutter, React Native, Vuetify, Bootstrap, Bulma, jQuery
- **DevOps & Cloud:** Deployed services using Google Cloud (App Engine, Cloud Run), managed assets with Cloud Storage and Firebase, integrated REST and Shopify Admin APIs, and used Git for version control and team workflows.

Work History

Web Developer

Dovr Media LLC, New Brunswick, NJ | April 2021 - Current

- **Completed Zendesk tickets** for customizing and maintaining Shopify storefronts through theme and Admin modifications.
- **Developed Shopify themes and its templates** using Liquid, HTML, and JavaScript, with custom snippets, sections, templates, including a custom 3D product viewer component, and third-party app integrations.
- **Managed Shopify Admin settings** such as SEO, shipping/delivery rates, financing APIs, policy content, and data structuring (vendors, tags, types).
- **Built an automation toolset** in PHP, JS, and Python that handled large-scale admin tasks to store's products, collections & themes across all of our stores.
- **Planned workarounds for feature limitations** across Shopify's pricing tiers, **identifying creative solutions that reduced costs** while preserving required functionality for clients.
- **Developed a Flutter mobile kiosk application Dovrsign** that displays the latest product catalogs from 100's of manufacturers to users in their store's kiosk devices/tablets.

- **Transitioned company app's old Vue2 JS framework to Vue3** with Vuetify/Vite and rebuilt previous pages/routing/OAuth authentication with Express JS.
- **Handled deployments to Google App Engine and Cloud Run**, managing service versions, container builds, and environment configurations as part of DevOps workflows.
- **Developed a data entry resource called 'Product Editor'** to easily edit the saved data in our database for our Data department.
- **Created Company Website**, with Next.js and TailwindCSS

Web Developer

Freelance, West Orange, NJ | October 2020 - February 2021

- Delivered websites for clients using Wix/Wordpress and coded solutions with React, HTML, CSS, Bootstrap, and JavaScript.
- Designed and developed a custom web application to streamline order tracking and shipment management for a small business, improving operational efficiency.
- Collaborated directly with clients to gather requirements, provide ongoing support, and ensure timely project delivery.

Android Developer Intern

Mentor U Connect, Newark, NJ | January 2019 - September 2019

- Develop application's layouts, features, services, and automations in full stack capacity.
- Collaborated with multidisciplinary teams to design new features.
- Create layout modifications to improve functionality.
- Communicated risks and benefits to management/key stakeholders.
